This isn't a bad showing at all. The output of coal in Kentucky increased nearly 90 per cent. from 1898 to 1901.

EDITOR DAVIS seems to be having a fine time up on Kinney, far from the "madling crowd." We wouldn't mind a "ticket" of the kind ourselves could we only strike oil.

We are offering watches and diamonds at \$10 to \$15 less than our competitors. Solid silver and cut glass, the largest assortment in the city, at a sacrifice.
 CLOONEY & PERRINE.

Our Goods Are Our Bond!

An ounce of fact is worth a pound of fancy—and the fact of our bargains is instantly recognized

Handkerchiefs.

Hot weather increases Handkerchief needs for perspiring brows. It is easy to fill the want when 12½c buys pure linen, embroidered, hemstitched Handkerchiefs. The hem is the dainty narrow width, the embroidery just above it in delicate vine patterns, and the linen, it is linen too, is a nice sheer quality.

Plenty of those popular linen, hemstitched Handkerchiefs for men, at 6 for 75c or 15c each. It's hard to keep a supply—you buy them so rapidly.

Parasols.

Have you counted one a luxury beyond your purse? Now is the chance. Only a few, less than a dozen. A white with tan border, a black and white stripe, a black flecked with white, a solid green in the very fashionable shade and some light, small plaid effects in the lot.

\$1 to \$2 50 values for 50c.

Remnants!

Not much use to talk of remnants when piece goods among the cottons are so reduced. But prices have almost reached the vanishing point on short lengths. Three to seven yards waists and children's frocks can be bought for a song from the remnant table. It doesn't cost to look. We invite investigation.

In late years men have made fortunes out of tailings of gold mines. The mills in which the ore formerly was crushed and the crude process then in use allowed a large per centage of the precious metal to escape and that loss amounted in some cases to a fortune. The stomach is just like a stamp mill in this respect, that when it is not in perfect order it allows the escape and waste of much of the precious nutriment contained in food. That loss when continuous means the loss of man's greatest fortune,—health. Science offers a remedy for this condition in Dr. Pierce's Golden Medical Discovery. It corrects the "weakness" of the stomach, prevents waste and loss of nourishment and puts the stomach and organs of digestion and nutrition into a condition of health which enables them to save and assimilate all the nutriment contained in the food which is eaten. In all cases of constipation the use of Dr. Pierce's Pleasant Pellets will speedily and permanently cure the disease.

ASLEEP IN DEATH.

Remains of Two of Maysville's Prominent Citizens Laid to Rest Thursday.

The funeral of the late Milton C. Russell took place Thursday afternoon at the family residence, Rev. R. E. Moss officiating, assisted by Rev. W. W. Hall, and later the remains were laid to rest in the Maysville Cemetery. The crowd that assembled to pay a last tribute to deceased was evidence of the high regard in which Mr. Russell was held by the people of Maysville and surrounding country, many being present from points outside of the city. The funeral procession was one of the largest ever seen in Maysville--the Oddfellows, Red Men, Knights of Pythias, Elks and firemen uniting in the tribute to their deceased brother and fellow-member. The floral offerings were very beautiful, that of the Elks being especially so, covering the casket with a wealth of fragrant flowers and immortelles, resting upon a bed of green.

The funeral of the late Joshua Boynton Burgess was conducted at the residence on West Second street Thursday morning at 10:30 o'clock by Rev. R. E. Moss. The home was thronged with relatives and friends who gathered to pay their last tribute to this good citizen, who had for nearly sixty years been a faithful member of the church. The pallbearers were Messrs. E. Myall, A. J. McDonle, W. H. Meaus, James E. Threlkeld, T. Y. Nesbitt and Major Chenoweth. The burial was private, the remains being laid to rest in the Maysville Cemetery.

During the last session of Congress James K. Taylor, supervising architect of the Treasury, was commissioned to erect 185 public buildings at a cost of \$52,000,000. Of these buildings 125 will be erected after competitive designs, the competition being open to all the architects of the country, but the sixty smaller buildings, Maysville's included, will be designed in the architect's office because there is not enough in them to justify a competitive test. The architect's office, under the direction of Mr. Taylor, has already commenced to acquire the necessary lands for the erection of the new buildings, the first lot being at Greenville, Tenn.

Attorney O. J. Mitchell, of Columbus, Ohio, representing the State Board of Pharmacy, has sworn out a warrant against Miss Sally Curry, of Georgetown, for selling him acetate of lead at her father's drug store. Mr. Curry was also arrested for permitting a sale by an unlicensed person. Mr. Mitchell says that he is backed by the Governor, Attorney-General and board.

Paris Green

THAT KILLS.

Many imagine that all Paris Green is of equal potency. This is not the case. Analysis of samples from various makers shows that some have more than twice the strength of others. You have perhaps observed evidence of this in the failure of an application of Paris Green to your tobacco plants to rid them of worms. We guarantee the strength and effectiveness of the Paris Green we sell. The manufacturers have a reputation for the high and uniform excellence of their product. There's economy in using this Paris Green; it costs no more than the other kind, goes farther and always does the work.

BLOWERS.

The most economical way of applying Paris Green is with blowers. We have the latest improved ones.
